## HIGHLIGHT OF QUALIFICATIONS

- Proficient in Python, HTML, CSS, C++, C, Oracle SQL, JavaScript, Node.js, and Bootstrap—with hands-on experience building responsive web apps and scripting automation.
- Completed multiple personal projects including a weather app, digital clock, and a platformer-style game using Pygame and graphics.py.
- Strong foundation in database management using Oracle SQL Developer, with practical skills in querying and data retrieval.
- Experienced with GitHub for version control and collaborative coding; maintains an active repository of projects.
- Currently pursuing Computer Programming and Analysis at Seneca Polytechnic, with a focus on real-world software development.
- Recognized with multiple academic awards including the School Council Scholarship and Highest Mark Award.
- Demonstrated teamwork and customer service skills through roles at Toys R Us and East Side Mario's, plus volunteer experience with Salvation Army Thrift Store.
